# Chrysanthemums

Chrysanthemums have no equal for cut flowers. The early sorts will give good blooms by the first of July and by a judicious choice of types we may have bloom until actual freezing weather. Many sorts are impervious to light frosts. Give plenty of moisture in full sun and fertilize heavily. Barnyard manure is the best and should be dug into the ground before planting and applied again when plants are in bud. A teaspoonful of bonemeal and another of super phosphate will help to produce exhibition blooms.

## NEW EARLY FLOWERING ENGLISH CHRYSANTHEMUMS

If disbudded these new sorts will make flowers from 5" to 6" across. If not disbudded the blooms will be larger than any other garden varieties. They also have the habit of early blooming which makes them doubly valuable for garden use.

# Fantail Pigeons

## LIVE ORNAMENTS FOR YOUR GARDEN

Nothing is more lovely than these beautiful birds strutting about a garden. They are as proud as peacocks of their huge, beautiful tails and fairly quiver with excitement as they strut about. Their soft cooing is always delightfully soothing, and as they are not very strong flyers, due to the weight of the heavy tail, they are always close to their home which can be regulated at will. An artistically built dove cote atop a post, or a shelf placed inside an out building with a small hole cut through to let them in and out will do nicely.

We can supply black, blue, red, silver, white, and mixed colors at \$5.00 a pair. For specimen birds write for prices.

**SHIPMENT** — All shipments will be sent Express collect unless postage is included. 15% East of the Mississippi and 10% West of the Mississippi river. Shipments over \$5.00 in the states of Montana, Idaho, Washington, Oregon and California will be prepaid.

**Responsibility**—While we endeavor to fill all orders with the greatest of care, we can accept no responsibility, either express or implied for failure with stock purchased from us as there are too many existing conditions over which we have no control.

## Special Early Order Discount

We will allow a 10% discount from catalog prices on all plant orders received before February 10, 1946 and 5% on all orders received before March 1st, 1946.
